Join educators, researchers, policymakers, business leaders, students and early childhood practitioners for the 5th Annual ECSTEM Conference. Participate in a teaching laboratory where you will gain ideas about STEM instruction and how to integrate STEM-related activities into your indoor and outdoor classroom environments. Visit the ECSTEM Hall of Inquiry with various vendors related to Early Childhood curriculum, materials and tools needed to grow confident learners!

- **Thursday, February 4, 2016:** The Conference kicks off with the **Panel of Experts and Evening Reception Event**, hosted by Options for Learning. Nationally known experts in Early Childhood Education will lead the panel conversation on the foundations of STEM, including Dr. Russell Shilling, Dr. Susan Hackwood, Dr. Mike Robb, Peggy Ashbrook, Kafi Blumenfield and facilitated by Dr. Carrie Rothstein-Fisch. Wine and hearty hors d'oeuvres are included.
- **Friday, February 5, 2016:** Attend the **Keynote** presentation with Dr. Susan Hackwood and select from more than 30 **workshops**. A tour of **The Huntington Library, Art Collections, and Botanical Gardens** which includes a workshop on-site is available to the first 50 people who register.
- **Saturday, February 6, 2016:** Day 3 concludes the conference with a **Final Keynote** presentation with Dr. Chip Donohue and select from more than 30 additional **workshops**. A school tour of **The Children's Center at Caltech** which includes a workshop on-site is available to the first 50 people who register.

**Additional registration is required for all tours.*
