

Emergency Child Care Bridge Program

Module 7: Self-Care for Providers

About the Training:

This training builds on the concept of trauma-informed care by helping providers understand how self-care impacts daily interactions with a child. Stress reducing strategies are also provided, offering more ways to help a child care provider navigate the impact of working with children and families.

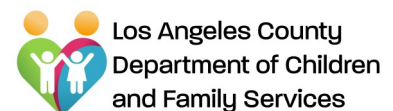

Trauma-Informed Care Training *For Providers*

Thursday– 11/3/22, 6PM-8PM
